# FRANKY R. INTERIANO

Miami, FL 33135 • (305) 600-9012 • ricky95hnd@gmail.com • linkedin.com/in/franky-interiano-info

## PROFESSIONAL SUMMARY

Motivated IT professional with hands-on experience in software development, database management, and reporting automation. Skilled in SQL, PL/SQL, Power BI and Node.Js with strong analytical and problem-solving abilities. Committed to continuous learning and adapting to the U.S technology industry while contributing to data-driven and technology-focused initiatives that enhance business efficiency and system performance.

## SKILLS

- <u>Languages:</u> SQL, PL/SQL, Python, JavaScript, Java, NodeJS.
- <u>Databases</u>: Oracle, MySQL, SQL Server.
- <u>Tools:</u> Power BI, JIRA, Trello, Confluence, Git.
- <u>Methodologies</u>: Agile / Scrum, Waterfall.
- <u>Soft Skill</u>: Communication, teamwork, adaptability, analytical thinking, problem solving, attention to detail.

## EXPERIENCE

### Grupo FICOHSA, Remote in Honduras • Software Developer        (07/2024) – (10/2025)

- Designed and implemented a new process for international transfer that reduced the SLA from 8 days to 1 day, significantly improving transaction turnaround and customer satisfaction.
- Developed backend components and automation workflows in PL/SQL and Java to optimize system performance across multiple banking modules.
- Built a regional integration flow that streamlined onboarding for partners banks, reducing systems coupling and setup time for new countries adopting the international transfer platform.
- Supported production environment by troubleshooting incidents and ensuring high system availability.
- Collaborated with agile teams using JIRA, Confluence and Git, ensuring transparency and continuous delivery across distributed teams.

### PIXDEA, Tegucigalpa Honduras • Junior Software Developer        (11/2023) - (03/2024)

- Contributed to the development of an AI-powered web prototype designed to track and mitigate bullying incidents through real-time data visualization.
- Implemented data collection and processing logic using AWS Lambda (Node.js, python) and MySQL to feed automated analytical dashboards.
- Built REST APIs with AWS API Gateway and connected them to front-end components in React for real-time reporting.
- Collaborated with a small agile team, managing tasks though Git and JIRA for iterative prototype development.

### University Project, Tegucigalpa Honduras • Full Stack Developer        (06/2023) - (08/2023)

- Designed a prototype for a university enrollment system enabling students and professors to manage class registration and section creation.
- Developed analytical and data-handling modules using JavaScript, node.js, React and SQL Server to handle class selection logic and database interactions.
- Improved user experience by streamlining course selection workflows and optimizing database queries.

## EDUCATION AND CERTIFICATIONS

### Universidad Nacional Autónoma de Honduras - Tegucigalpa, Honduras

• *System Engineering (2020-2024)*
